April 2021

---

## Last few days to apply for our grants scheme

We've launched a small grants scheme to enable more people from seldom heard groups to share their ideas of how health, care and community services could be improved.

The Community Cash Fund will enable community groups to apply for up to £1,000 to start projects in their local community.

The term 'seldom-heard groups' refers to under-represented people who might use health, care or community services, but who are less likely to be heard by the people who plan and run these services.

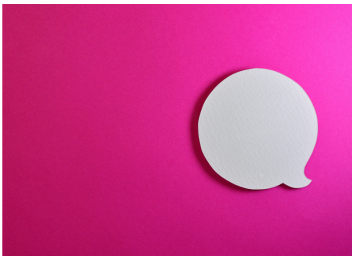

[Visit our website](#) to find out more and to apply.

All applications must be received by **5pm on Sunday 18 April**.

## People with Autism asked for their views

We're working with [Wiltshire Service Users Network](#) to find out what people with Autism Spectrum Conditions and their relatives and carers think about health, care and support services.

We have launched two surveys, [which can be completed online](#), on paper or over the phone.

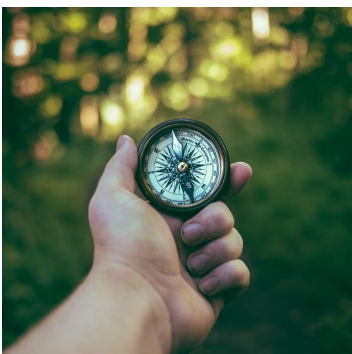

If you'd like to share your views and would like support to complete the survey, or would like a paper copy to be sent to you, please call us on 01225 434218.

Everything you share with us will be used to tell those who run services what could be improved or developed in the future. All feedback is confidential and anonymous.

## Stay up to date with changes in health and care

Our website offers a range of advice and information to help keep you up to date with the latest changes in health and social care.

The latest information includes the [Government's roadmap](#) out of Covid lockdown restrictions, [changes to Covid testing sites](#) in Wiltshire, and an

update on the [community support available](#).
